Welcome to EuCOMC 2025, welcome in Bern

As chairs of the 26th European Conference on Organometallic Chemistry, we are delighted to host EuCOMC 2025 and hope that many community members are able to attend the event in Bern. Since the first EuCOMC edition in Nieborów in Poland in 1974, the series has been an outstanding place to discuss most recent advances in organometallic chemistry. It has built a high reputation for excellence and great discussions, and a superb opportunity for meeting friends and colleagues, and for making new ones.

In keeping the tradition with previous editions, EuCOMC 2025 will feature a fantastic line-up of plenary and keynote speakers from all over the world as well as slots for oral contributions.

We look very much forward to welcoming you in beautiful Bern in July 2025. Please register and follow us on X at @EuCOMC2025.

About Bern, the Host City of EuCOMC 2025

Its central location in the heart of Europe and excellent national and international connections make Bern easy to reach from anywhere in the world. The extensive public transport network connects all parts of the city, and thanks to Bern's manageable size, you can go almost anywhere on foot. www.bern.com

Sponsoring and Supporting Possibilities

EuCOMC offers interested parties from industry, publishing and partner organizations the opportunity to interact with the international audience of the event and to promote their services and products. The vonRoll Campus of the University of Bern was opened in 2013 and offers a modern infrastructure for teaching, research and congresses.

Are you interested in a collaboration? We look forward to hearing from you and will be happy to answer any questions and design customized solutions for you.
